

**REMEDIAL AND REFRESHER MATH SUMMER SCHOOL
("R AND R MATH")**

February, 2010

RE: R & R MATH FOR 4TH TO 7TH GRADERS

Dear Parents,

If your child has shown signs of struggle with math this past academic year, this Summer's **R & R Math** may be the solution to help boost his/her confidence and build competence in areas listed below.

Whole number operations (the "Basics"), fractions, decimals, ratios, proportions, percent, geometry, pre-Algebra, integers, charts and graphs, word problems, probability.

The class will be held 3 hours daily (Monday – Friday), 5-8 pm for 2 weeks (30 hours). The cost is \$275.00. (\$9.16 per hr). This enrollment cost is considerably lower than hourly private tutoring fees, as well as being competitive with other venues of Summer School!

Class size will be small and materials will be included. If absences occur during the two-week session, there will be no make-ups.

Two Summer sessions will be held if enrollment shows the need. Once the June session is booked, the August session will be open for enrollment.

June 14-25 (Monday – Friday) 5-8 pm
August 2-13 (Monday – Friday) 5-8 pm

Enrollment will be handled on a **"first come, first serve"** basis, so call to confirm your placement asap. The enrollment fee will be required at the time of the booking.

Looking forward to a progressive math experience with your child, I remain

Mindy Delano
